

Proposed Motion:

Motion to approve the ability for the local area to transfer funds between PY2015 Dislocated Worker Formula funding and PY2015 Adult Formula funding, in the amount up to \$125,000. {The LWIOA will transfer the funds in accordance with Workforce Development System Technical Advisory # 13-9.3, after the Governor's approval.}

Background:

WIOA law allows the transfer of funds between the Adult and Dislocated Worker formula funding. The One-Stop Operator (Employment & Training) has found the need for Adult program funding is greater than available. Dislocated worker eligibility is a more restrictive subset of Adult eligibility.

Dislocated Worker funding is used for training/services if a customer meets the requirements for Dislocated Worker status.

Amount will be determined by Executive Director and Fiscal Manager to the best use of PY2015 funds.

Program spending reports can be found on this list; the third line shows an "Anticipated Transfer to Adult Program" line as well as shows expenditures for those programs.

At this time, we expect to request a transfer of \$125,000.
