

RESUME 1030

OBJECTIVE

Dedicated and mechanically skilled worker seeking a position in maintenance or electrical maintenance where hands-on technical abilities, electrical training, and strong problem-solving skills can support safe and efficient facility operations.

SUMMARY OF QUALIFICATIONS

- Solid understanding of electrical fundamentals, including circuits, components, capacitors, lighting systems, transistors, and introductory PLC concepts.
- Hands-on experience wiring residential homes and commercial properties through BOCES technical training.
- Strong mechanical aptitude supported by personal automotive repair experience, tool ownership, and self-directed welding practice.
- Proven reliability and work ethic demonstrated through progression from dishwasher to line cook in a fast-paced commercial kitchen.
- Comfortable working independently or as part of a team, with attention to safety, procedures, and quality.
- Quick learner who adapts easily to new systems, tools, and technologies.
- Currently teaching himself welding techniques, including basic MIG welding, demonstrating initiative and interest in expanding his skill set for industrial maintenance.
- Comfortable using hand tools, power tools, and diagnostic equipment; able to follow repair guides, evaluate mechanical issues, and complete tasks safely and accurately.

EDUCATION, TRAINING, AND ACHIEVEMENTS

Electrical & Electronics Certification

O/N BOCES, Sanborn, NY

- Gained practical wiring experience in both residential homes and commercial buildings, working with conduit, fixtures, switches, outlets, and lighting systems.
- Developed strong understanding of electrical principles, components, safety procedures, and troubleshooting basics.
- Learned how to identify and work with capacitors, resistors, transformers, transistors, and other common components found in electrical systems.
- Strong knowledge of motor controls, relays, and PLC fundamentals, providing early understanding of industrial electrical maintenance tasks and control systems.
- Experienced with reading simple schematics, performing continuity checks, and applying safe lockout/tagout principles during practice scenarios.

High School Diploma

Lewport High School, Lewiston, NY

PROFESSIONAL EXPERIENCE

09/2024 – Present

Line Cook (Previously Dishwasher)

Brickyard, Lewiston, NY

- Prepare, cook, and plate menu items while maintaining consistent quality, speed, and safety within a demanding high-volume kitchen environment.
- Perform basic troubleshooting and upkeep of kitchen equipment, recognizing mechanical or electrical issues early and reporting or correcting them when possible.
- Coordinate with kitchen staff to ensure smooth operation during peak hours, demonstrating strong communication, teamwork, and problem-solving skills.
- Managed dishwashing operations with attention to speed, cleanliness, and reliability, helping maintain the workflow of the entire kitchen.
- Learned equipment functions and basic maintenance, which helped support a transition into cooking responsibilities.
