PROFESSIONAL EXPERIENCE

03/2025 – 05/2026 **Small Engine Mechanic**
Aqua Supply, Clarence, NY

- Diagnosed, repaired, and performed preventive maintenance on a variety of small engines and commercial lawn care equipment.
- Specialized in servicing and troubleshooting Kohler and Kawasaki engines, including fuel, ignition, electrical, and cooling systems.
- Performed maintenance and repairs on Scag and Walker mowers, ensuring optimal performance and reliability.
- Conducted engine tune-ups, oil changes, blade replacements, belt installations, and hydraulic system maintenance.
- Identified mechanical and electrical issues using technical manuals, diagnostic procedures, and testing equipment.
- Replaced and adjusted engine components such as carburetors, starters, fuel pumps, belts, pulleys, and bearings.

03/2024 – 03/2025 **Construction Laborer**
Tradesmen International, Buffalo, NY

- Install solar panels on large-scale solar farms, ensuring timely completion of projects and adherence to safety protocols.
- Assist in various construction projects, including building foundations, framing, and finishing work.
- Operate heavy equipment, such as skid steers, to move materials and equipment around job sites.
- Utilize hand tools and specialized equipment to perform repairs, including multimeters and compression testers.
- Demonstrate a strong understanding of small engine mechanics and troubleshooting techniques.
- Collaborate with team members to achieve project goals and resolve issues efficiently.

08/2023 – 01/2024 **Security Guard**
Buffalo Iron Works, Buffalo, NY

- Provide security services during concerts and events, including crowd control, access control, and perimeter security.
- Monitor crowds for any signs of disturbances, unauthorized behavior, or safety hazards, and take appropriate action to de-escalate situations.
- Conduct security checks of patrons and bags upon entry to ensure compliance with venue policies and regulations.
- Conducted security checks of equipment and facilities to ensure compliance with safety regulations.

02/2022 – 10/2023 **General Labor**
Aquasol Corporation, North Tonawanda, NY

- Assisted with various tasks in support of underwater welding operations, including equipment setup, machine operation, maintenance, and repair.
- Operated machinery such as slitter machines and equipment, including power tools, pumps, and lifting devices, in a safe and efficient manner.
- Followed safety protocols and procedures to ensure a safe working environment for all employees.
- Maintained cleanliness and organization of work areas, including storage of tools and equipment.
- Followed instructions from supervisors and communicated effectively with team members to ensure efficient workflow.

10/2018 – 03/2020 **Small Engine Mechanic**

08/2014 – 03/2016 Jack's Lawn Mower Service, North Tonawanda, NY

- Diagnosed mechanical issues and perform repairs on a variety of small engines, including lawn mowers, chainsaws, generators, and other outdoor power equipment.
- Performed routine maintenance tasks, including oil changes, tune-ups, and blade sharpening, to ensure optimal performance and longevity of small engines.
- Interpreted technical manuals and schematics to troubleshoot and repair complex mechanical and electrical systems.
- Utilized diagnostic tools and equipment to identify and resolve engine performance issues, such as compression testing, fuel system diagnostics, and ignition system testing.
- Maintained accurate records of repairs, parts usage, and service history for each small engine.
- Provided excellent customer service by explaining repair options, answering questions, and ensuring customer satisfaction with completed repairs.

09/2017 – 03/2020 ***Stage Hand / Security Guard***

Rapids Theatre, North Tonawanda, NY

- Assist with stage setup and production activities, including loading and unloading equipment, assembling and disassembling stage elements, and operating audio, lighting, and video equipment.
- Coordinate with production staff, performers, and crew to ensure smooth and efficient stage operations during events.
- Follow safety protocols and procedures to ensure the safety of performers, crew, and patrons, including crowd control and emergency response.
- Perform security guard duties, including access control, perimeter security, and monitoring for suspicious activity or unauthorized behavior.
- Communicate effectively with team members and supervisors to coordinate tasks and respond to emergencies.

03/2016 – 02/2017 ***Maintenance / Janitorial***

McDonald's, Tonawanda, NY

- Perform routine maintenance tasks, including cleaning, sanitizing, and restocking restroom facilities.
- Clean and sanitize kitchen equipment, including grills, fryers, and food preparation areas, according to company standards and health regulations.
- Sweep, mop, and vacuum floors throughout the restaurant to maintain cleanliness and prevent slip and fall hazards.
- Empty trash receptacles and dispose of waste according to company procedures and sanitation guidelines.
- Perform minor repairs and maintenance tasks, such as replacing light bulbs, unclogging drains, and fixing leaky faucets.
- Follow safety protocols and procedures to ensure a safe working environment for all employees and customers.
- Assist with other tasks as needed, including assisting with food preparation, cashiering, and customer service.

02/2013 – 06/2013 ***Quality Control / Tester***

ATSBNY, LLC, Kenmore, NY

- Tested 8-cylinder GM automobile / truck engines, shipped in from the manufacturing plant, and performed comprehensive tests to ensure that the block and all components did not leak coolant, fuel, or oil.
- Completed all necessary paperwork, including engines passed or if it failed, reports on defective parts which did not conform to quality standards.
- Utilized computerized diagnostic tools and software to diagnose engine and vehicle performance issues accurately.
- Followed safety protocols and procedures to ensure a safe working environment for technicians and customers.

10/2010 – 06/2011 ***Quality / Assembler***

Confer Plastics, North Tonawanda, NY

- Set up, operated, or tended plastic molding machines to mold or cast thermoplastic parts.
- Measured and visually inspected products for surface and dimension defects to ensure conformance to specifications, using precision measuring instruments.
- Removed parts, such as dies, from machines after production runs are finished.
- Determined setup procedures and select machine dies and parts, according to specifications.
- Weighed and mixed pelletized, granular, or powdered thermoplastic materials and coloring pigments.
- Adjusted controls to draw or press plastics into specified shapes and diameters.
- Started machines and set controls to regulate vacuum, air pressure, sizing rings, and temperature, and to synchronize speed of extrusion.
