

Resume 1042

OBJECTIVE:

Dedicated and reliable manufacturing professional seeking a position where I can utilize my experience in assembly, manual lathe operation, soldering, material handling, and shipping preparation to contribute to production efficiency, quality workmanship, and overall company success.

SUMMARY OF QUALIFICATION:

- Experienced manufacturing and production professional with expertise in assembly, material handling, packaging, and shipping operations.
- Skilled in operating tow motors, manual lathes, and various hand and power tools in fast-paced production environments.
- Proficient in assembling mechanical and electronic components while maintaining strict quality and safety standards.
- Experienced in precision soldering of cables, modules, diaphragms, & small components, including microscope soldering.
- Knowledgeable in spot welding, deburring, evacuation processes, & interpreting technical drawings & work instructions.
- Proven ability to prepare, crate, band, and package products for shipment while ensuring accuracy and product protection.

PROFESSIONAL EXPERIENCE:

02/2022 – 09/2026 ***Assembler***

Stellar Technology, Lockport, NY

- Operated Harding manual lathes to machine and modify precision components according to engineering specifications and quality standards.
- Performed spot welding, soldering, and assembly of electronic cables, components, and modules used in manufacturing processes.
- Soldered delicate components and diaphragms under a microscope, ensuring accuracy and compliance with strict quality requirements.
- Deburred machined parts and components to maintain proper fit, finish, and functionality before final assembly.
- Conducted evacuation processes and assisted with the preparation and testing of assemblies to ensure product integrity and performance.
- Interpreted work instructions, blueprints, and technical drawings to complete assemblies accurately and efficiently.
- Maintained a clean and organized work area while adhering to company safety, quality, and production standards.

07/2000 – 11/2022 ***Grinder***

Diversified Manufacturing, Lockport, NY

- Operated Sirius 3015 Plus CNC Laser Machine
- Grinded and polished welds on cold rolled steel, aluminum and stainless to a uniformed finish.
- Ran die grinders, 4-inch grinders, Curtis belt sanders and time saver sanders.
- Operated bevel and spiral machines, phosphate washer, hydraulic saws and Peerless heavy duty shear cutter.
- Cut steel tubing, pipe and threaded rod on saw to specifications.
- Operated tow motor equipment to safely move raw materials and finished products throughout the warehouse and production areas.
- Assembled speed rollers and conveyor components according to specifications, ensuring quality and accuracy.
- Prepared products for shipment by crating, packaging, and securing materials to prevent damage during transit.
