---

## OBJECTIVE:

Experienced Maintenance Foreman and Journeyman Pipefitter with years of expertise in pipefitting, maintenance supervision, and project management. Adept at overseeing large teams, ensuring compliance with safety regulations, and delivering projects on time and within budget. Seeking to contribute my skills and experience to your organization

## SUMMARY OF QUALIFICATIONS:

- Proven ability to lead and mentor cross-functional teams, fostering a collaborative and productive work environment. Strong track record of training and supervising apprentices and junior pipefitters.
- Trained in and fully compliant with all OSHA safety laws and regulations including training for the safe handling and disposal of hazardous materials.
- Establishes rapport quickly with a diverse customer population, recognized for personal and professional integrity, cultivating and maintaining positive interpersonal relationships, and collaborating to develop mutually beneficial solutions through interactions with teams, managers, and customers
- Dedicated to delivering high-quality workmanship and exceptional customer service, consistently meeting or exceeding client expectations.
- Excellent problem-solving skills with a proactive approach to identifying and addressing issues. Demonstrated ability to make sound decisions under pressure.
- Well organized, strong communications, and math skills
- Multi-tasks efficiently, learns new systems quickly, and completes all duties on-time or ahead of deadlines

## PROFESSIONAL EXPERIENCE

06/2001 – Present      **Plumber / Steamfitter** (Journeyman & Foreman)  
Local 22, Buffalo, NY

- Lead and supervise plumbing and steamfitting projects for commercial, industrial, and residential clients ensuring timely and on-budget completion.
- Install, maintain, and repair piping systems for water, steam, gas, and other fluids, adhering to blueprints, codes, and safety regulations.
- Coordinate and manage teams of journeymen and apprentices, providing training, mentorship, and quality control.
- Ensure compliance with OSHA safety standards and local building codes, maintaining an excellent safety record with zero lost-time incidents over 10+ years.
- Document project progress, prepare reports, and communicate with stakeholders.
- Develop and enforce safety protocols and training sessions reducing workplace accidents.
- Adapt to evolving industry standards and technologies through certification renewals.

06/1996 – 06/2001      **CNC Lathe Operator**  
Broda Machine, Niagara Falls, NY

- Operated Mazak and Okuma CNC lathes to produce precision parts, achieving tight tolerances for components daily, meeting strict quality specifications.
- Performed machine setups, including loading tools and setting offsets, reducing setup time through optimized workflows.
- Interpreted technical blueprints and drawings to ensure accurate machining of complex parts, minimizing scrap rates through attention to detail.
- Conducted in-process inspections using calipers, micrometers, and CMM, ensuring first-pass yields on high-volume production runs.
- Adjusted feeds, speeds, and tool paths on Mazak and Okuma controls, improving machining efficiency for parts.
